

**There are plenty good reasons to
criticize AI and AI companies.**

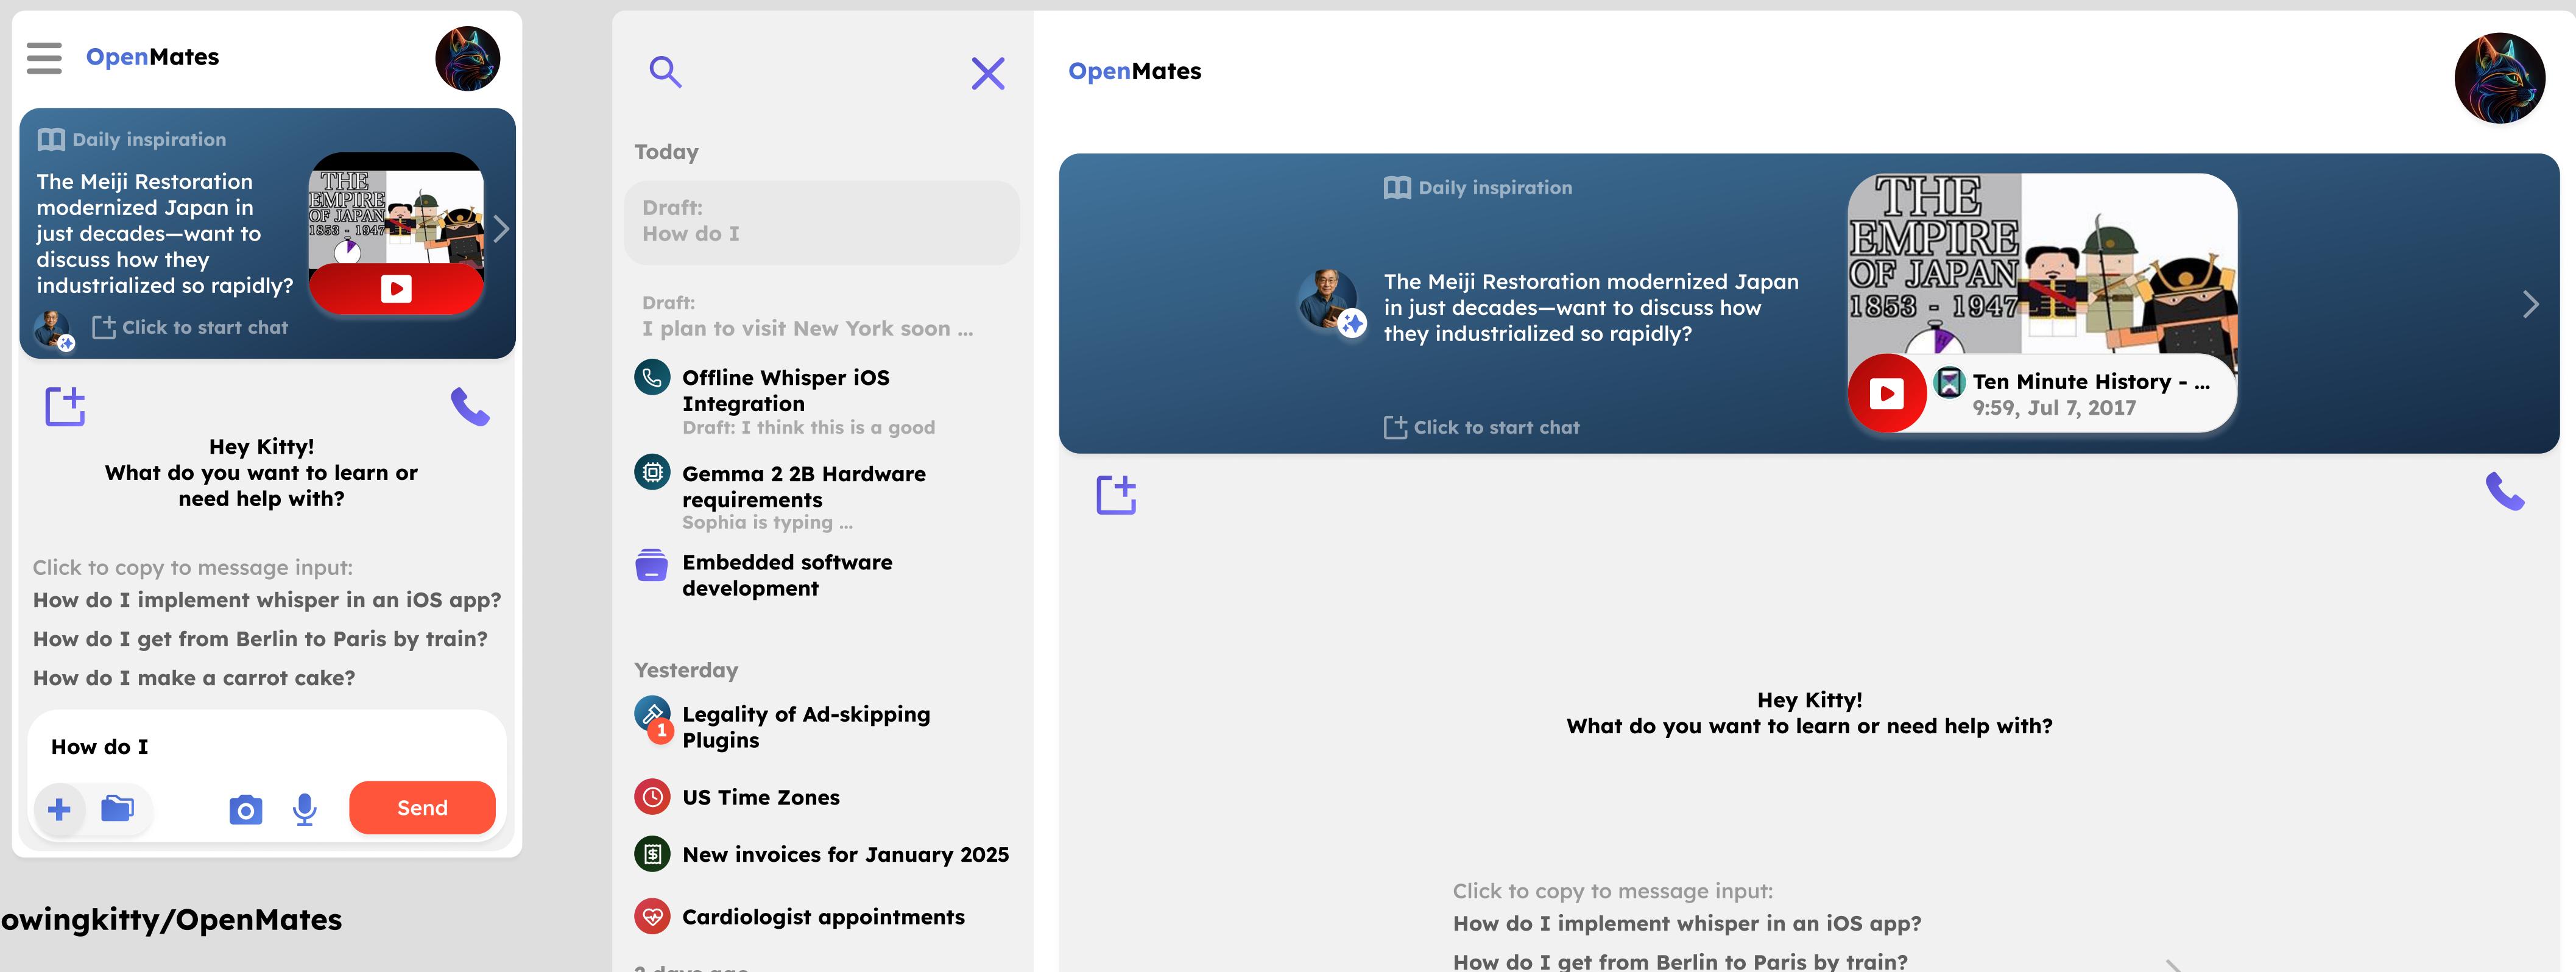

BUT

There are plenty good reasons to criticize AI and AI companies.

BUT

**Biggest problem isn't the tech.
It's profit-at-all-costs big tech
companies and tech oligarchs
locking us into their ecosystem.**

Solution: Building a better alternative: user interests & meaningful value first, open source, provider independent.

Difference to other projects?

Privacy & safety.

Zero knowledge

Data minimization

User stays in control

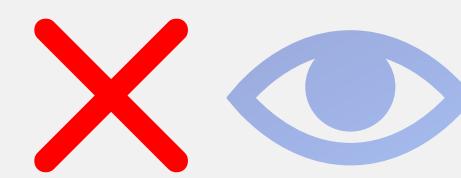

Multi layer prompt
injection protection

Made for individuals,
easy to use.
NOT for enterprise

Focus on education
& inspiration
& useful daily tasks.
NOT AI slop creation.

Goals?

Digital assistants for everyone, not just the rich.
