

# OpenMates

**Digital team mates  
For all of us.**

Designed & built by

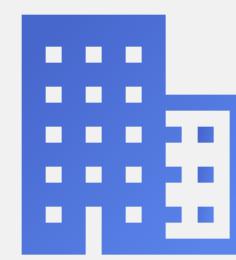

# Problem

**ChatGPT, Claude, Gemini & co are poorly developed products and will always remain so, because of core weaknesses.**

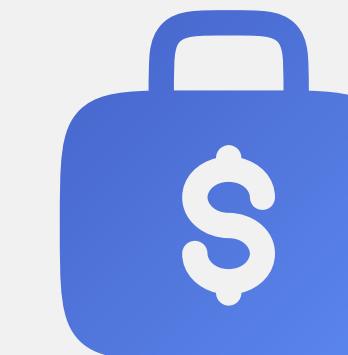

**Maximum profit over maximum user happiness.**

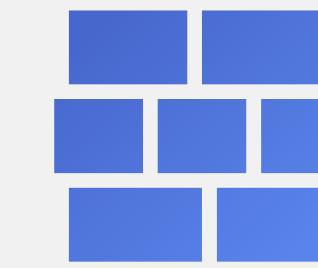

**Enterprise focus, further increasing inequality**

**Engineering focus instead of UX design focus.**

**Billions of investment → Enshittification guaranteed**

**Closed ecosystem → limited usability**

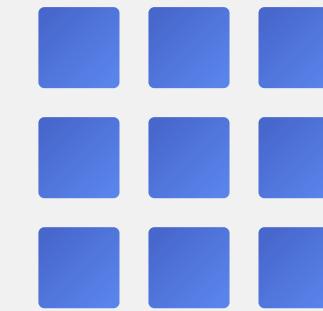

**Open source alternatives: great ideology, bad usability**

# Solution

A better ChatGPT. Built for users, not for shareholders.

**Focus on everyday users, freelancers & small businesses.**

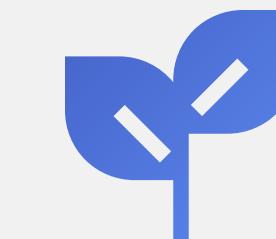

**Open source path as insurance policy against enshittification**

**Focus: Best possible products for users, not max greed.**

**Privacy & security focus by default**

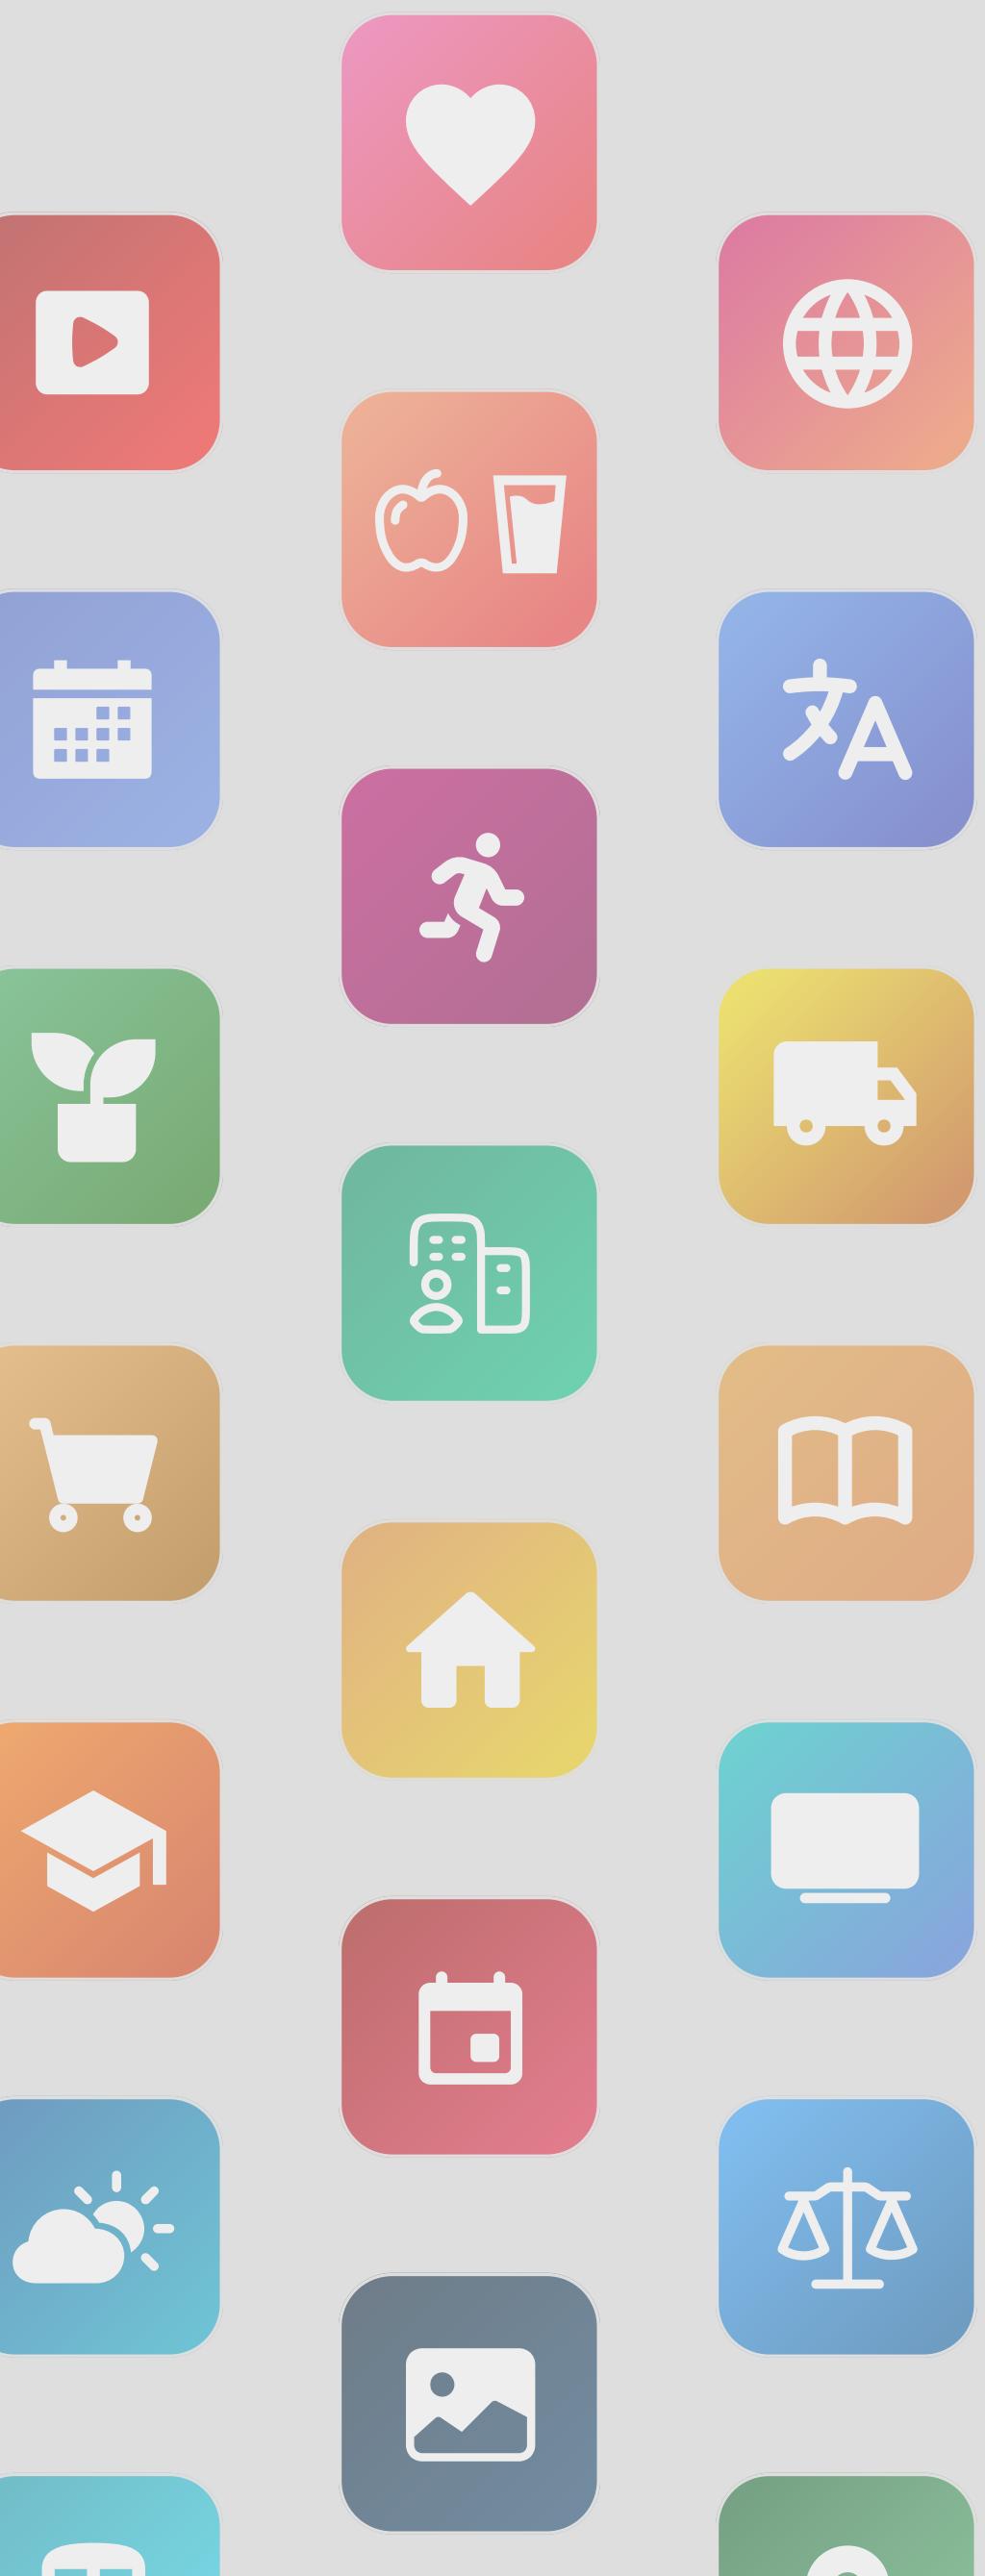

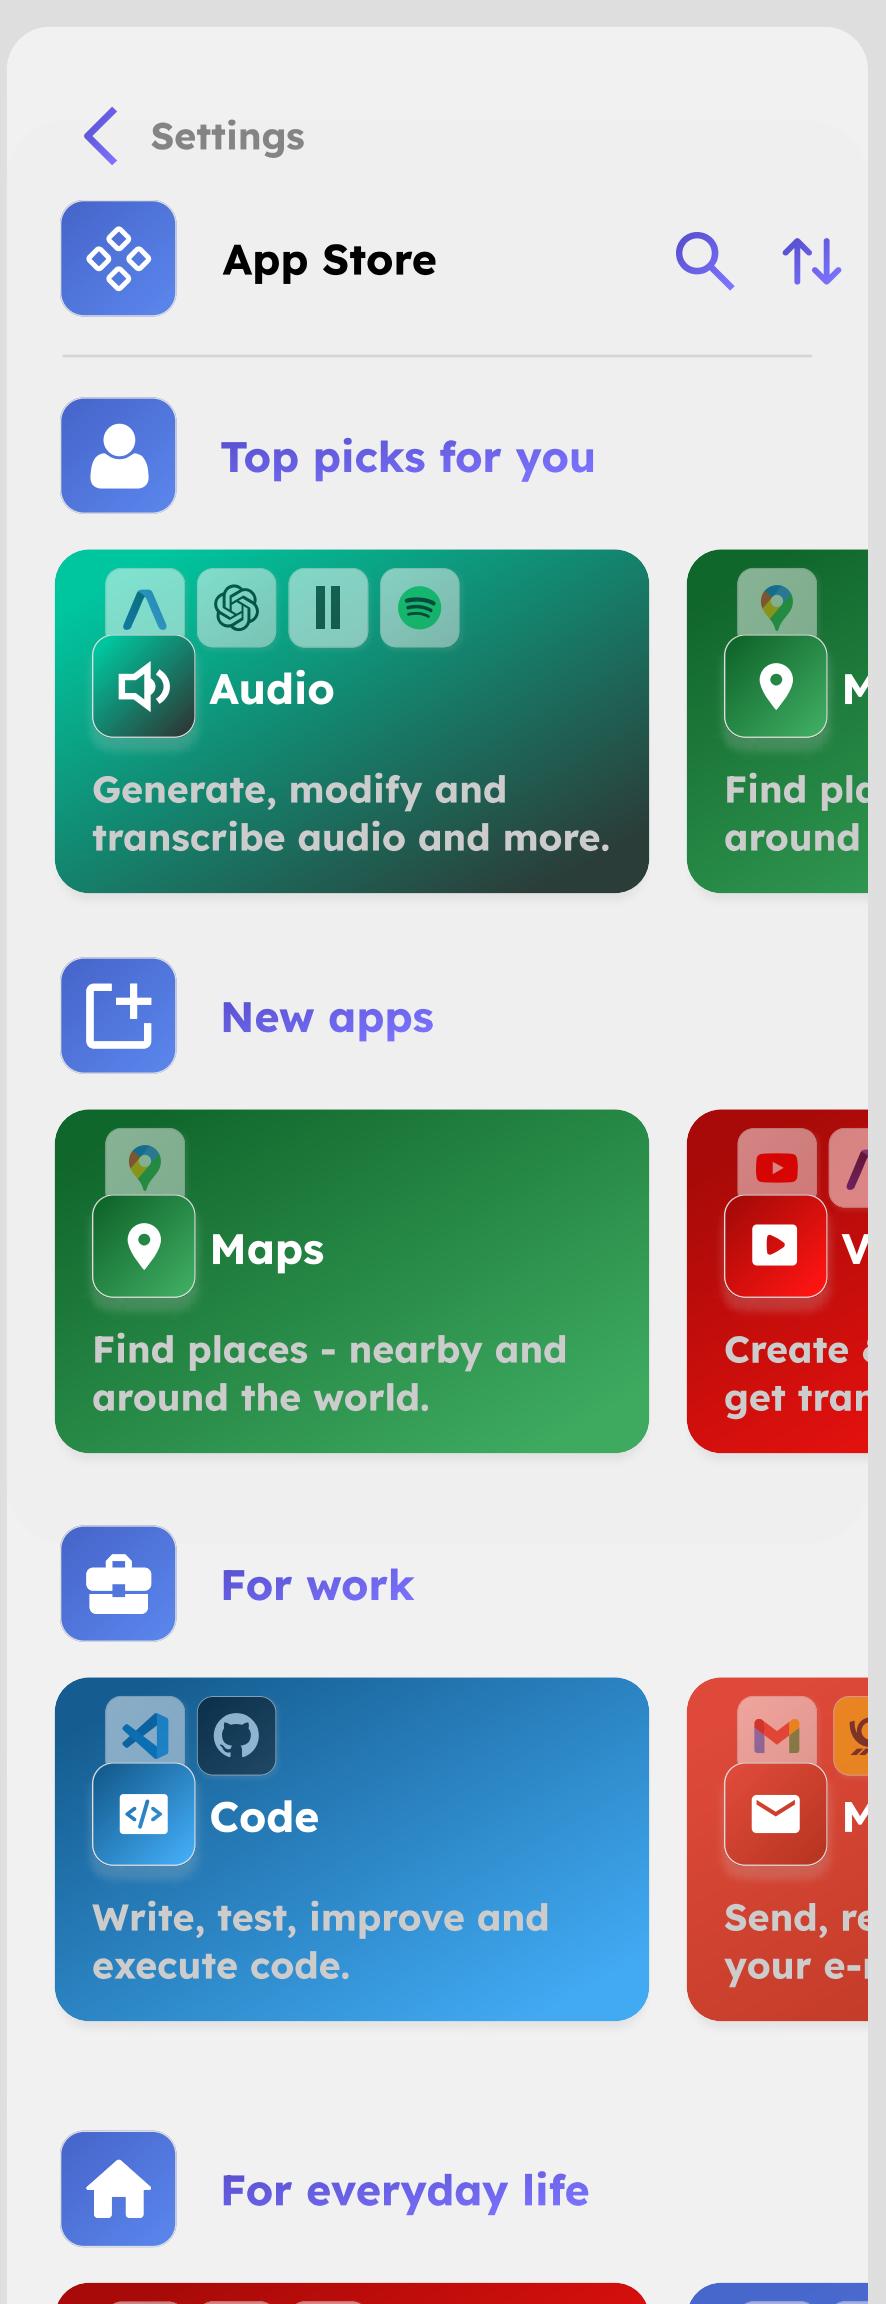

**Open ecosystem, long term independency & sustainability**

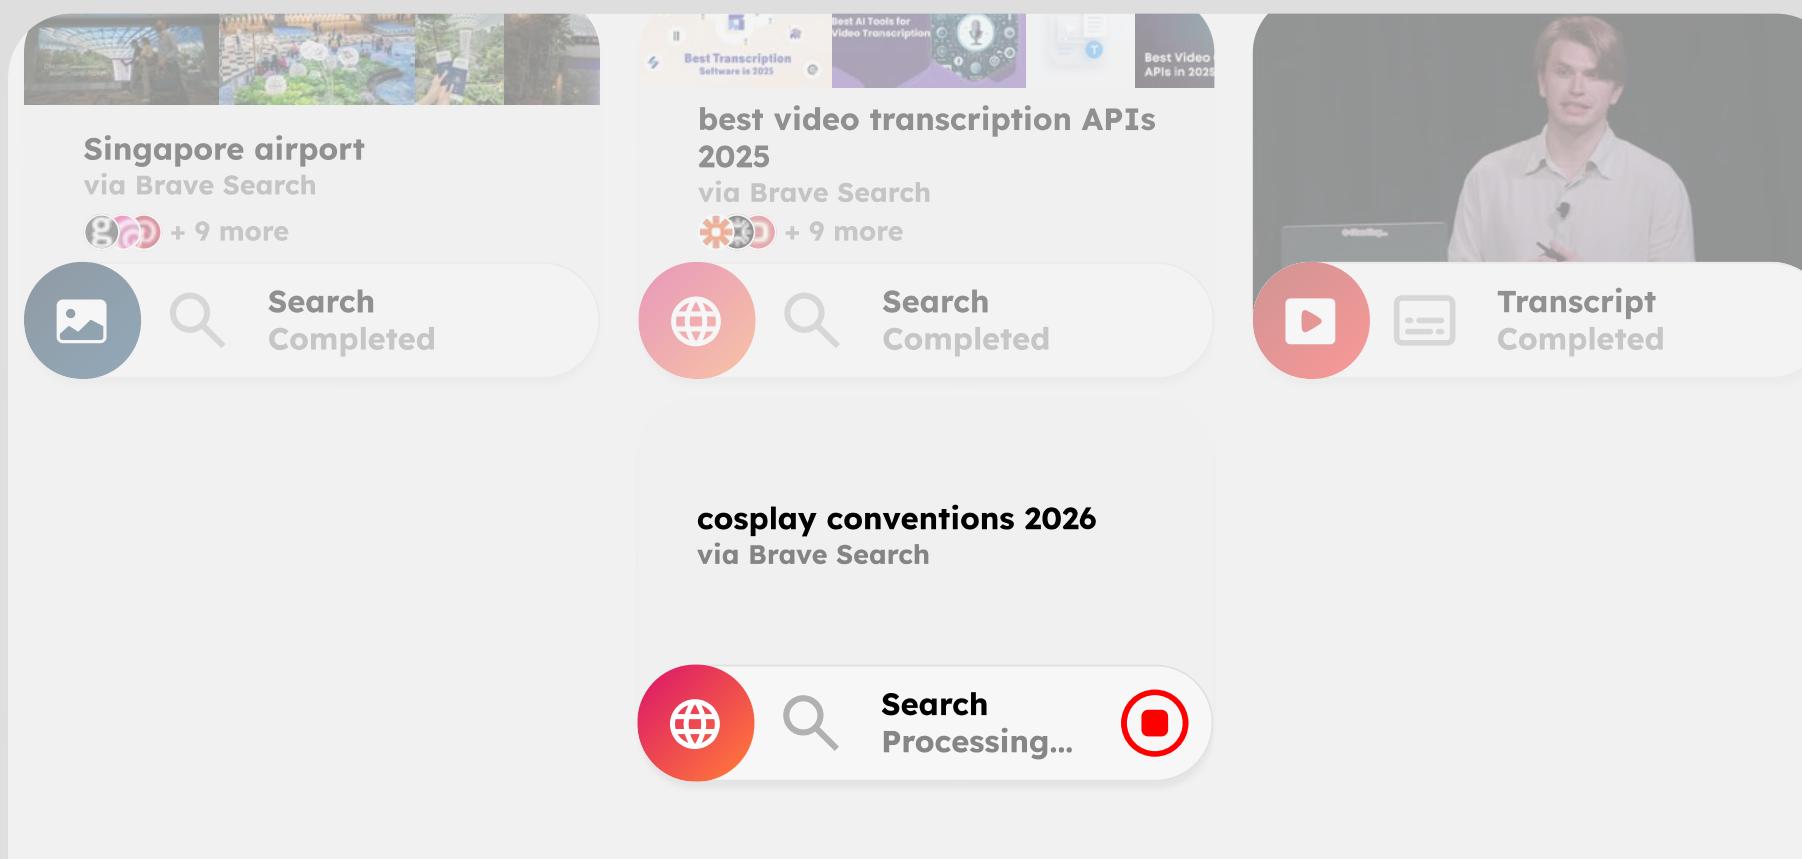

# Apps

The core to make AI agents actually useful & reliable.

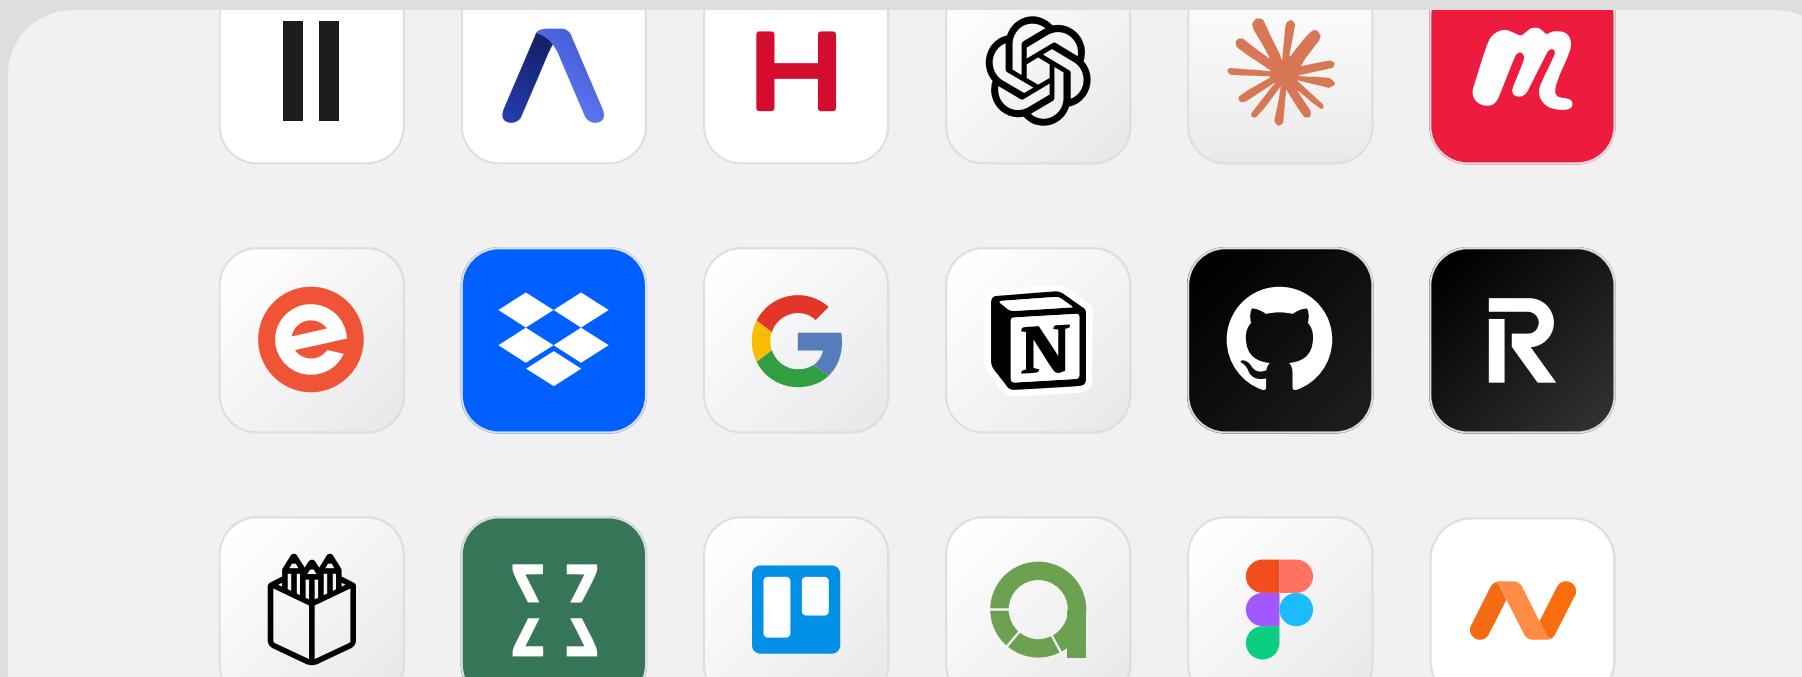

# How apps work

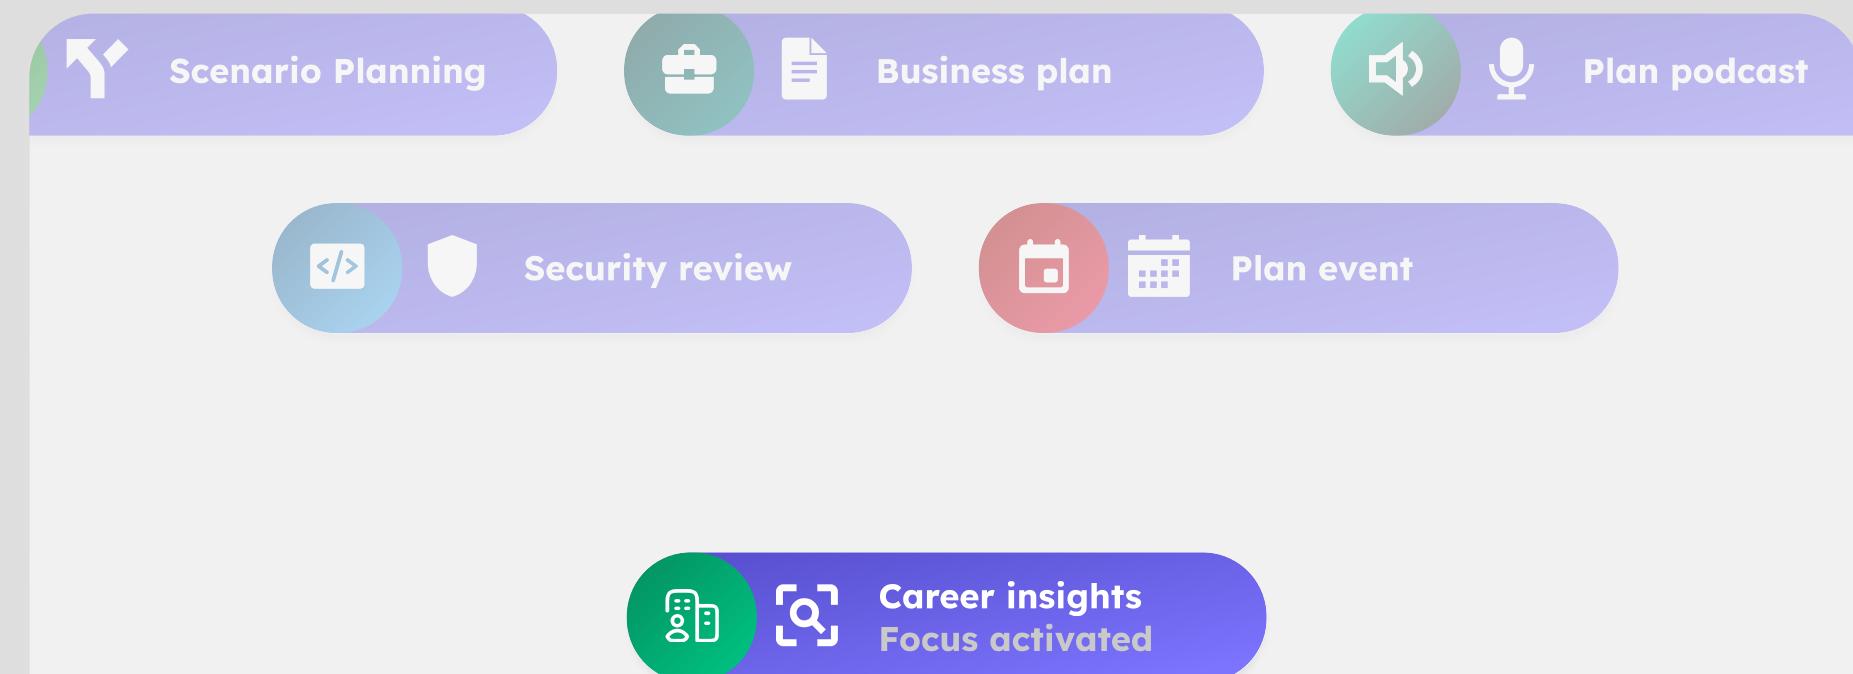

Every app has four aspects:

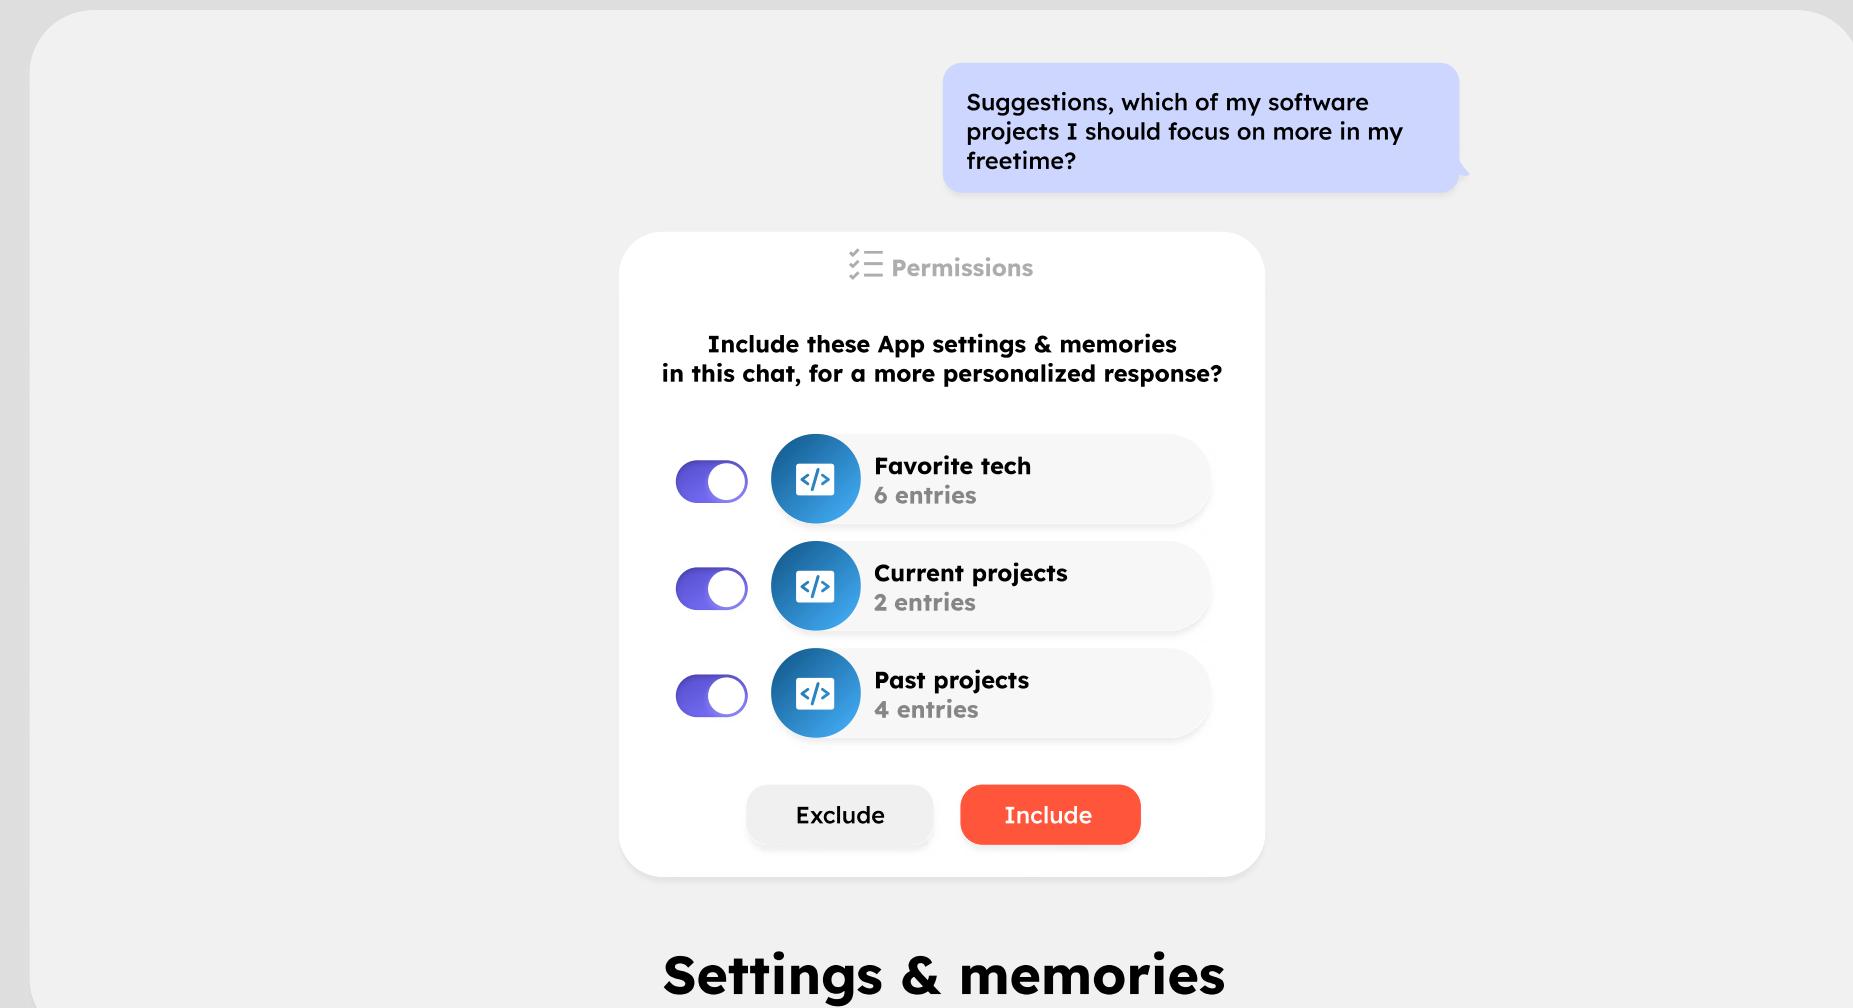

Skills

Providers

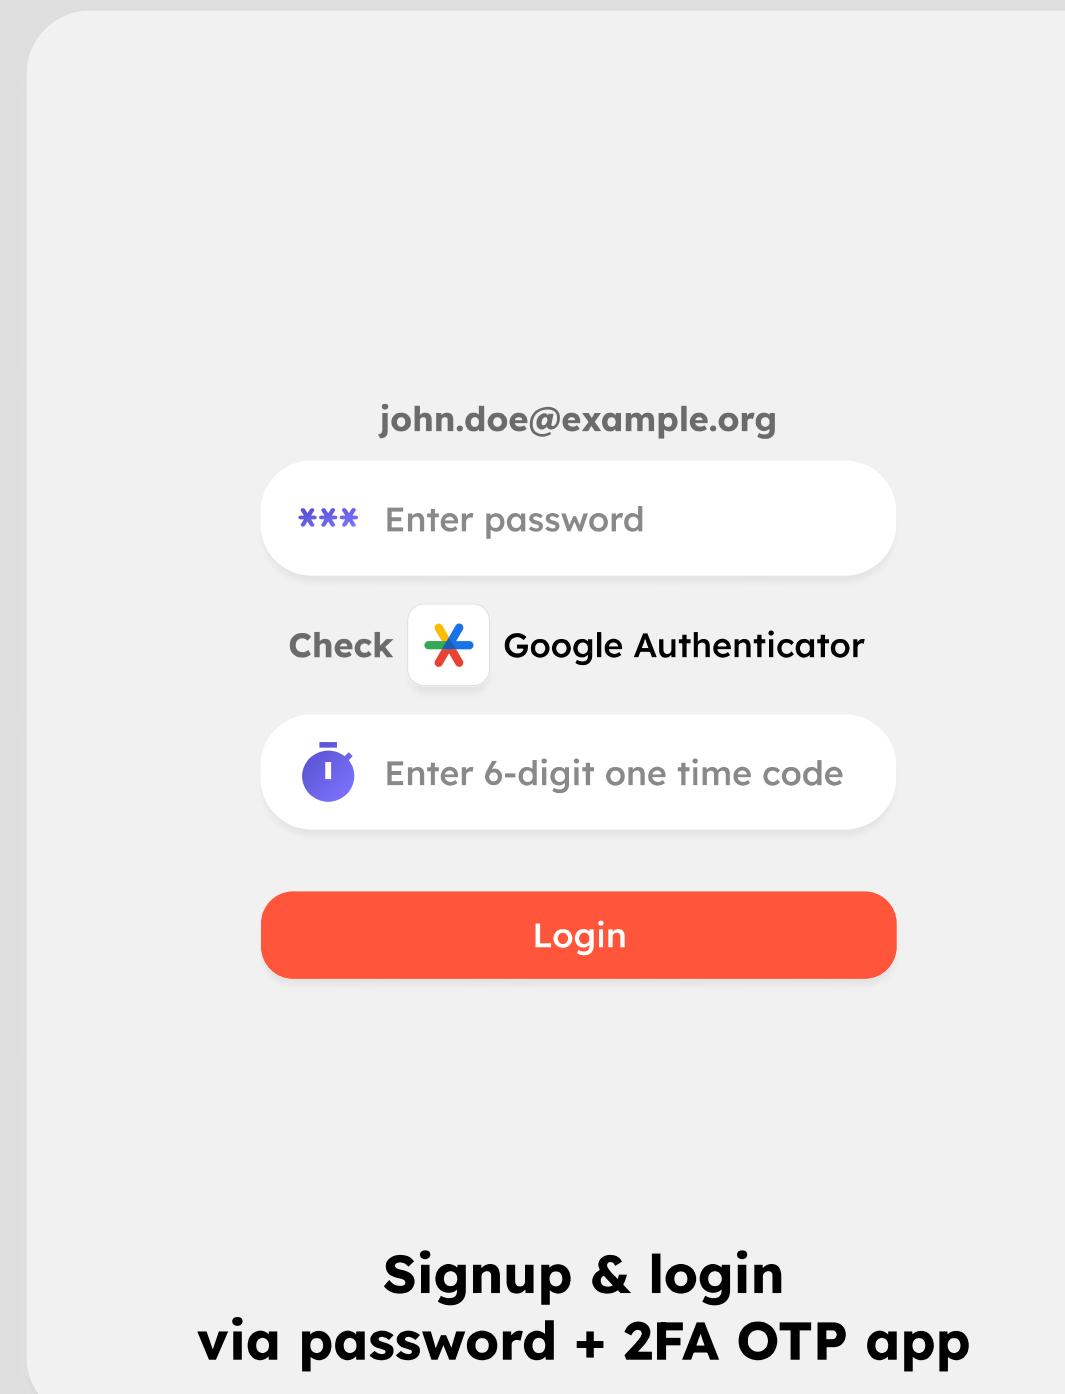

Focus modes

Settings & memories

# Completed

After over a year of work, OpenMates is now open source & accessible as a cloud web app - in an early alpha version.

**Open source**

# What's next

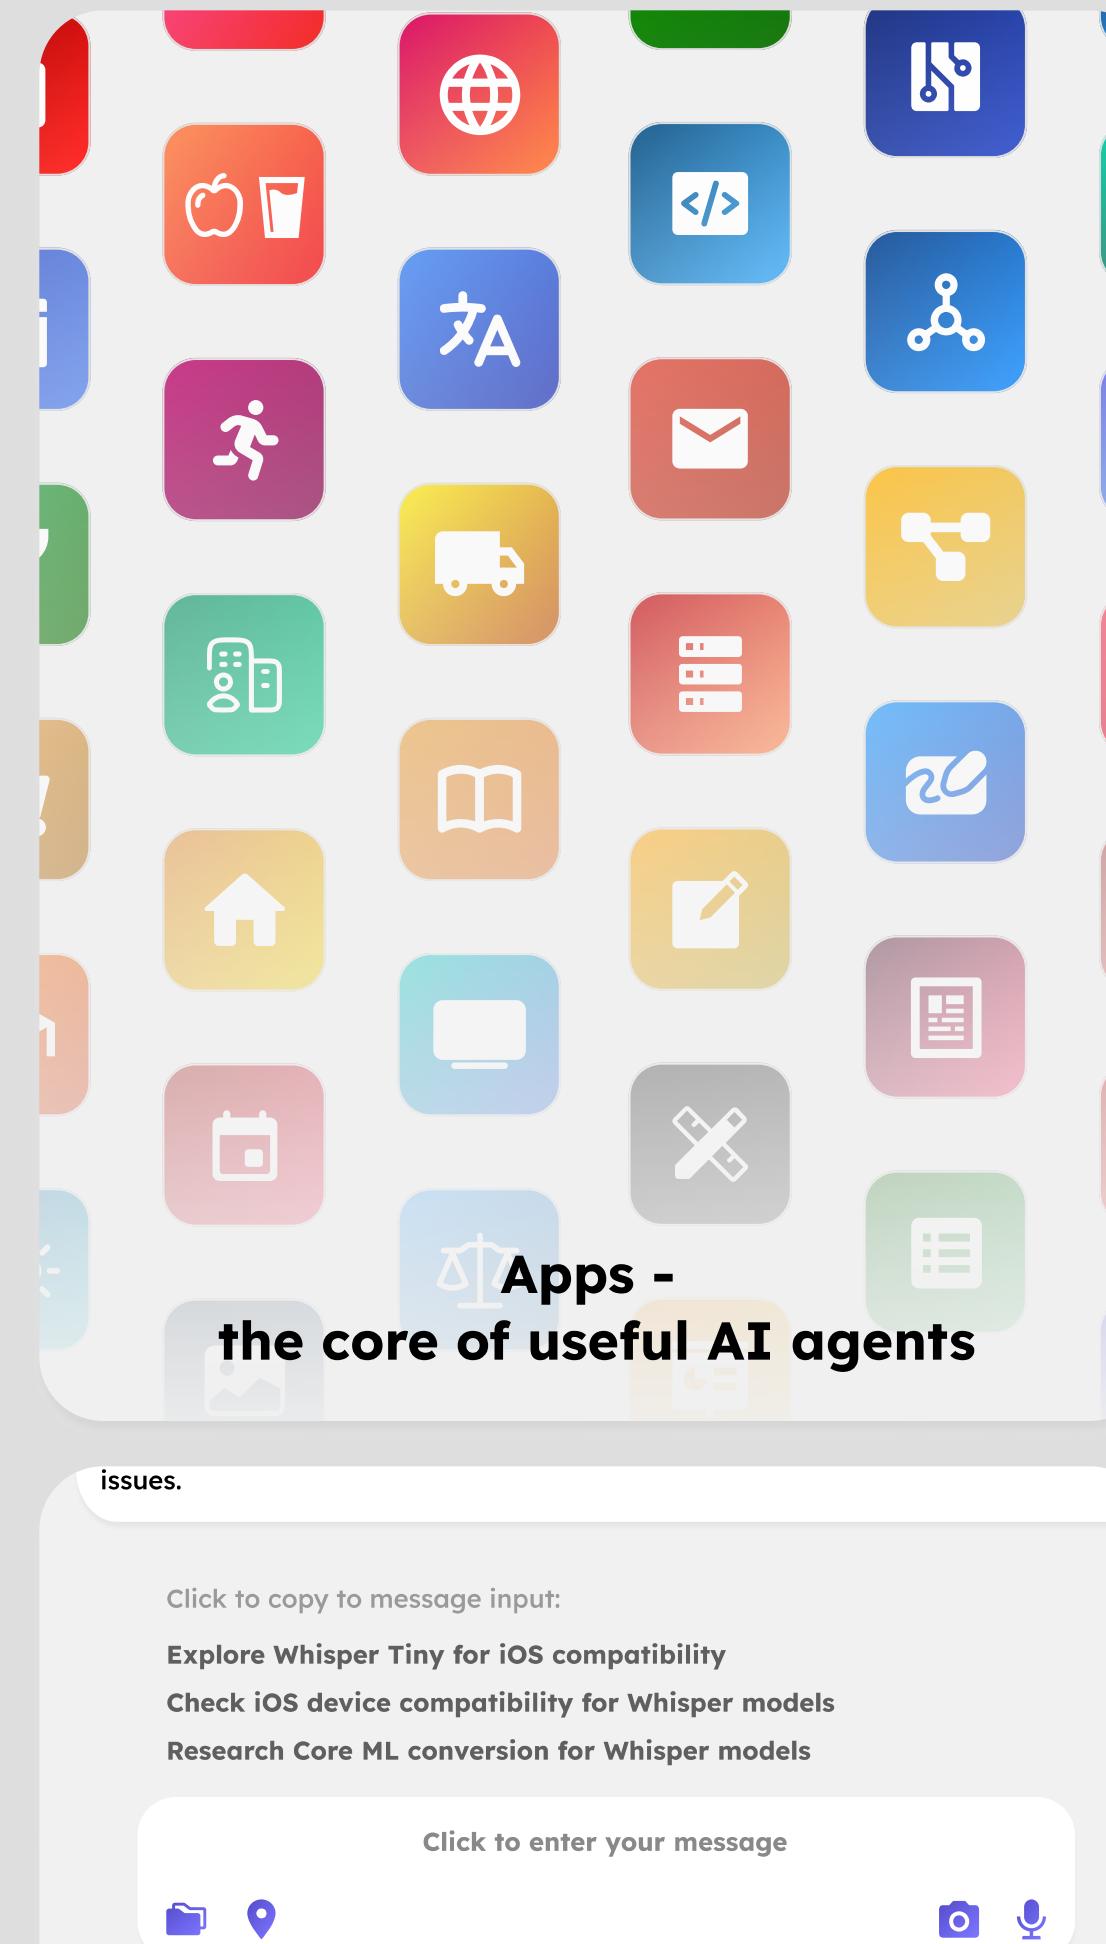

The next core features to be implemented:

**e2e - Only your devices can encrypt & decrypt your data**

**Unified UI to show media & app skill use details**

**Follow up questions - to encourage learning**

**OpenMates.org**

**New website, with documentation**

**Auto select the best AI model for every task**

# Business model

How to ensure the sustainable development of OpenMates:

**Paid cloud version for everyone, Self hosted for developers**

**Pricing**

- Text input: 1 ⚡ per 150 tokens
- Text output: 1 ⚡ per 20 tokens
- Image input: 10 ⚡ per image (max 100 images per chat)

**Transparent prices in App Store.**

**Usage**

Category	Value
This month	291 ⚡
AI	250 ⚡
Audio	41 ⚡
August 2025	184 ⚡
AI	141 ⚡
Audio	43 ⚡

**Pay credits per app skill use. No subscription required.**

**Pay ⚡ per use**

You only pay what you use. Fair & accessible for all of us.

- ✓ no expiration of credits
- ✓ no subscription required
- ✓ no ads
- ✓ no selling of user data

We're adding the App Store soon. You'll find the usage prices there.

**Fair system & low barrier to entry.**

**On low balance**  
Once credits below 200: 21.000 credits for 20 EUR.

**Every month**  
22.000 credits for 20 EUR.  
Incl. 1.000 free credits!

You can change these settings at any time.

**Auto top-up for more convenience.**
